Results appear in the order in which they were run. Bold underlined text indicates a median measurement.

Compiler Invocation Notes

This result was measured with pre-release build 36.0 of Sun Studio 12 Update 1

Peak also uses "GCC for SPARC Systems 4.2.1", which combines gcc with the Sun Code Generator for SPARC systems. It is invoked as "gcc", and accepts source code compatible with GCC 4.2.

For more information, including support, see <http://cooltools.sunsource.net/gcc/>

Submit Notes

A processor set was created using

```
psrset -c 1-63
```

and the runspec process was placed into the set using

```
psrset -e 1
```

The config file option 'submit' was used to select specific processors within the set, along with the pbind command.

Operating System Notes

ulimit -s 131072 was used to allow the stack to grow up to 131072 KB (aka 128 MB). Note that saying "131072" is preferable to "unlimited", because there is a tradeoff

between space for the stack vs. space for the heap.

/etc/system parameters

autoup=600

Causes pages older than the listed number of seconds to be written by fsflush.

bufhwm=3000

Memory byte limit for caching I/O buffers

segmap_percent=1

Set maximum percent memory for file system cache

tune_t_fsflushr=10

Controls how many seconds elapse between runs of the page flush daemon, fsflush.

tsb_rss_factor=128

Suggests that the the size of the TSB (Translation Storage Buffer) may be increased if it is more than 25% (128/512) full. Doing so may reduce TSB traps, at the cost of additional kernel memory.

The "webconsole" service was turned off using
svcadm disable webconsole

The system had 111 GB of swap space.
The ufs fragment size was set to 8192

Platform Notes

This result was measured on a Sun SPARC Enterprise T5220. All of these are electronically equivalent:

- Sun SPARC Enterprise T5120
- Sun SPARC Enterprise T5220
- Fujitsu SPARC Enterprise T5120
- Fujitsu SPARC Enterprise T5220

A SPARC Enterprise 5120 can hold up to 4 disks, and a 5220 can hold up to 8. This system was tested with 4 disks; therefore, this result applies to both the 5120 and the 5220.
